Wendy H. Walker, M.D. Ann Scott, RN MSN CDE

Prescription Refill Process

Patients of Little Traverse Primary Care:

In our effort to better serve you, your provider has implemented the process of asking you to **contact your pharmacy directly to request refills on prescriptions**. This process minimizes the time required to refill prescriptions.

If you need a written prescription, you will need to call our direct number:

- Petoskey/Harbor Springs at 231-347-5400
- Cheboygan at 231-627-5400
- Alanson at 231-548-5400

The receptionist will forward you to your provider's voicemail box.

Please be prepared to provide the following information when leaving your message for a written prescription or samples:

- Your name
- Date of birth
- A phone number we can contact you at if we have questions
- The name of the medication
- The dosage and how many times per day you take it
- The number of pills you have left

Please allow three business days to process your written prescription or sample request.

Thank you for your continued patronage.
